

HOW TO START THE BUS

The bus is **diesel** and **automatic**

1. Secure any objects which are likely to slide around in transit, in particular, do not leave loose objects on top of the chest of drawers
2. Handbrake on, gear in **Park**
3. Insert ignition key – kept on dash behind steering wheel – and turn on – two clicks, until the dashboard lights up, but the engine has not started
4. Wait for the glow plug light to go out 
The icon is a yellow glow plug symbol on a black background.
5. Put foot on brake and turn ignition key once more to start engine
6. Put foot on brake and engage **Reverse** or **Drive** as required
7. Handbrake off
8. **Keep a good lookout** - if reversing have someone behind to warn of obstructions

HOW TO STOP THE BUS

1. Put foot on brake, put gear in **Park**, handbrake on
2. Turn off ignition, put key on dash
